

Aluma Systems Inc.

Aluma Systems is a Brand Energy and Infrastructure Services company, a global leader in concrete formwork and industrial services.

Founded in 1964 as a Chicago insulation contractor, Brand Energy and Infrastructure Services is the leading diversified provider of specialty multi-craft services to the north American downstream energy infrastructure market. Our extensive portfolio of industrial services includes industrial scaffolding for work access, industrial coating and painting, abrasive blasting, industrial insulation, refractory, corrosion protection, special event services, weatherproofing and other related crafts. Brand operates in four key energy sectors: refining, Canadian Oil Sands, petrochemical and power generation. The company also serves the infrastructure construction markets throughout North America and in strategic international regions.

In 2005, Brand acquired Aluma Systems.
