

North American Enterprises Ltd.

About Us

North American Construction Group Inc. (NACG) is the premier provider of mining, heavy construction, industrial, piling and pipeline services in Canada. By offering such a wide range of services, NACG can provide a comprehensive and integrated approach to meet our customer's requirements.

NACG is in an advantageous position. Our distinctive combination of talent and experience is unmatched in our industry. Over the last ten years, Alberta has experienced unprecedented economic growth. We are focused, not only on capitalizing on this growth in the Alberta oil sands, but also, on building for sustainable, continual growth over the long-term.

NACG Corporate Video

We have several branch offices located throughout western Canada, our headquarters are in Edmonton and we have branch offices in Calgary, Fort McMurray, Vancouver, Saskatoon, and Regina. Our geographic positioning throughout Canada puts us at a distinct advantage, that's one of the reasons we are the largest mining and construction company serving Alberta's oil sands.

Our focus on people and relationships separates us from the competition. Our health and safety standards are extremely high, which allow us to acquire some of the best talent in the industry.

We're more than just big equipment. The difference is in our unique talent and knowledge, combined with an unmatched history of over 50 years of experience. Trust, expertise and sustainability—our company has been built on these standards. We will continue to embrace these standards as we further our commitment to our partners.

What We Do

For over 50 years North American Construction Group Inc. (NACG) has worked to build a solid reputation as an industry leader. As one of the largest providers of mining, heavy construction, industrial, piling, and pipeline services in Canada, we have the precise combination of knowledge and experience that clients seek when they select a service provider.

We take pride in providing the highest possible level of service to our clients.

By fostering a healthy and safe work environment, NACG is able to attract some of the best individuals in the industry. Our experienced team of professionals is able to tackle any job while adhering to the highest standards of safety and quality. NACG has a proven quality assurance program that has been developed for both broad and specific scopes of work, our piling division is ISO 9001:2000 certified and all of our business units are ISO compliant.

NACG maintains one of the largest independently owned equipment fleets in the region, and features some of the largest equipment currently available. This large and diverse fleet gives NACG the ability to respond quickly to changing client requirements, and to provide the most efficient blend of equipment to any project to ensure efficient, timely and cost effective operations.

Unrivalled in excellence, North American Construction Group is determined to always be the service provider that is first and foremost in the minds of our clients, employees and stakeholders.
