

The Alberta Regional Council of Carpenters

About Us

The Alberta Regional Council of Carpenters and Allied Workers represents more than 11,000 members in four Locals Unions:

- Locals 1325 and 2103 representing Carpenters, Scaffolders, Interior System Mechanics, Roofers, Drywallers and Floor Layers in Northern and Southern Alberta respectively
- Local 2010 representing industrial shop and manufacturing trades Province-wide
- Local 1460 representing Millwrights province-wide

We're proudly affiliated with the 130 year old United Brotherhood of Carpenters and Joiners of America (UBC), North America's second largest and most progressive building trade union. This gives the Regional Council access to a mobile workforce of over 550,000 members in the international with 50,000 of those in Canada.

The UBC's General President is Douglas J. McCarron, a man whom we truly regard as visionary. His executive includes Canadian Vice-President Jim Smith.

The Alberta Regional Council of Carpenters is a leader and one of the largest affiliates of the Alberta Building Trades Council. The Council continues to streamline its services to offer improved efficiency to its affiliates and to the Alberta construction industry from all participating trades.

With shared resources, central coordination, and cooperation with other trades, our Local unions are now able to be more responsive to industry needs. We are providing the Alberta contractors with a highly motivated, safe and skilled workforce, backstopped by training in all crafts in our own state of the art facilities. Our goal is to set industry standards in all our training.

Our basic attitude to union-employer relations is one of partnership. We firmly believe everyone should profit from the construction industry and that includes both our members and their employers.

Joining the Locals of the Alberta Regional Council can start with a phone call or a visit to our website: www.albertacarpenters.com.

The Alberta Regional Council operates two interconnected systems for dispatching its Carpenter, scaffolder and ISM members to jobsites: a voicemail phone system and an internet system. The Millwrights operate a separate phone dispatch system.
